

WebWorks Publisher Professional 2003 for FrameMaker

Specifications

Course ID: WWPPFRM-01

Duration: 2 days

Benefits: Students will learn the basics of converting single-source FrameMaker books into various online formats using WebWorks Publisher Professional 2003. The two-day session includes a 1/2 day workshop - students are encouraged to bring sample files to work with.

Prerequisites: Familiarity with Adobe FrameMaker.

Target audience: FrameMaker users who are new to WebWorks Publisher.

Delivery method: Instructor-led, group-paced, classroom-delivery with structured hands-on activities.

Overview

This workshop introduces the basic concepts and overview of the templates included in WebWorks Publisher Professional 7.0. Students will learn how to properly map and customize styles using the new Style Designer and convert FrameMaker books into searchable, user-friendly output in various online formats. This workshop also provides a brief introduction on how to implement your own corporate look-and-feel.
